

Membership Report 2025

The following table details the change in individual members by category, in what was again a good year overall for the club:

Membership Type	2023	% change	2024	% change	2025
Women	138	-2%	135	+2%	138
Men	184	-5%	175	+3%	180
Students	13	-15%	11	-64%	4
Juniors	81	-5%	77	-9%	70
Children	24	+8%	26	-38%	16
Total	440	-3.6%	424	-4%	408

Although the total membership has fallen by 4%, when you analyse the figures, the actual membership revenue has gone up. We have increased the number of adult members and lost a number of juniors and students. Whilst it is always good to have juniors coming through the club, they have a minimal effect on the total revenue.
